

PRESS RELEASE

DIESESE ANNOUNCES THE NEW CONFIGURATION OF ITS CHORUS TRIO IMMUNOMETRIC ASSAY SYSTEM

The system features enhanced functionalities, a more dynamic user interface and a new design

The Chorus Trio, immunometric assay system based on disposable diagnostic devices, with over 150 available tests, displays implemented appearance and performances.

An attractive design in line with DIESESE new brand, but above all with technical and operational characteristics improving CHORUS TRIO performances along with an intuitive user-interface, which boosts its flexibility.

We are so proud of the result obtained in this which is, under all aspects, the evolution of a successful system - says Luigi Nava, Commercial Operations Director - the new Chorus Trio is the ideal, reliable and simple solution for the assay of immunodiagnostic specialties without waste of reagents, thanks to its single-test device configuration, made today even more flexible in use and effective in providing diagnostic information in a short time, and with DIESESE proven quality.

Diesse Diagnostica Senese S.p.A. Diesse Diagnostica Senese S.p.A. is an Italian company which produces integrated and entirely in-house in-vitro diagnostic systems. Its headquarters are in Siena. Since its foundation in 1980, the company has developed, produced and marketed innovative diagnostic systems mainly in the field of immunodiagnosics and automatic ESR measurement.

The company has a global presence in over 100 countries, has 3 production sites and 1 research center, where the design and implementation of tests and new automated diagnostic detection tools meet Italian design and cutting-edge technology, identifying Diesse as an example of real "Diagnostics Evolution".
